## DECLARATORY RESOLUTION NO.

479-1924.

For the opening and extending of Berry Street from Monroe Street to Francis Street.

Resolved by the Board of Public Works of the City of Fort Wayne, Indiana, that it is desired and deemed necessary to open and extend Berry Street from Monroe Street to Francis Street to a width of fifty (50) feet.

All as shown by a plan of such proposed opening and extending of Berry Street now on file in the office of the Department of Public Works of said City.

Said opening and extending as above described to be made by condemning and appropriating for street purposes the following described tracts of land:

A strip of land lying south of a line that is fifty (50) feet north of and parallel to the now existing north line of Moran's Subdivision of Lots Numbered 24, 25, 26 and 27 Taber's Addition and Taylors Subdivision of Lots Numbered 387 and 386 Hanna's Addition, and said line fifty (50) feet north of said subdivisions produced north west to the west line of Monroe Street produced north, and the said line produced southeast to the east line of Hanna Street produced north; Also a strip of land extending from Hanna Street to Francis Street lying south of a line that is twenty-five (25) feet north of and parallel to the south property line of the New York, Chicago and St. Louis Railroad Company. The above described twenty-five (25) line from the west line of Francis Street to be produced northeasterly to its intersection with the north line of Erie Street; also the north eleven (11) feet of Lots Numbered 371, 370, 369, 368 and 367 Hanna's Addition as now existing; also the north twenty-five (25) feet (at right angles to the south line of said Railroad Company's property) of Lots Numbered 372, 373 and 374 Hanna's Addition as now existing.

The property which may be injuriously or beneficially affected by the proposed opening and extending of Berry Street as above described is described as all lots and parcels of land not occupied by streets and alleys lying south of the alley north of Berry Street and said alley extended east and west from Thieme Drive to the Maumee River and south of the Maumee River from the said alley extended east to Anthony Boulevard, West of Anthony Boulevard, North of the alley south of Erie Street from Anthony Boulevard to the alley west of Francis Street, north of Wayne Street from the alley west of Francis Street to Monroe Street, North of the alley south of Berry Street from Monroe Street to Thieme Drive, and East of Thieme Drive.

All of the above described streets and alleys and lots and lands affected by the above described opening and extending of Berry Street being situated in Sections 1, 2 and 3, Township 30 North, Range 12 East and within the corporate limits of the City of Fort Wayne, Indiana.

Adopted this 24th day of January 1924.

Filed with the Board of Public Works

THE W-W PRINTING CO.

Supplementary to Resolution #479  
for opening and extending of Berry  
Street from Monroe to Francis Street.

Fort Wayne, Ind., January 18, 1927.

To the Board of Public Works of the City of Fort Wayne:

Gentlemen:

The undersigned, owners of real estate, tax-payers and citizens of Fort Wayne, Indiana, whose signatures with others were given on petition heretofore presented to The Board of Works of Fort Wayne, herewith file a supplementary to Resolution 479 for the opening and extending of Berry Street from Monroe to Francis Street, which resolution was adopted January 24, 1924.

Attached hereto are three blue prints being exact and true copies of three different platting of Record in the Allen County Recorder's Office, same being as follows:

Lots bordering Canal Street in Taber's Addition, Deed Record A, Page 451; Moran's Subdivision of Lots 24, 25, 26 and 27 Taber's Addition, Deed Record 58, Page 200; Taylor's Subdivision of Lots 387 and 386 Hanna's Addition and Taber's Addition, Deed Record 66, Page 267.

The Board of Works in years past have vacated Canal Street from Clay to Berry Streets as indicated in red pencil on blue print for Taber's Addition. Canal Street from Berry Street east has never been vacated and remains of great importance for the opening and extending of the thoroughfare on to Francis Street and connecting with Erie Street.

The blue print showing survey of land from Fort Wayne to New Haven is also herewith attached. Property owners east of the city are now circulating petitions for the opening of roads on both sides of the Maumee River. These latter roads must positively come in the future and the opening and extending of Berry Street to Erie Street will serve a most important through street for the proposed roads which will lead into Fort Wayne and make close connections with Erie Street at Anthony Boulevard.

We are praying that the Resolution adopted by the Board of Works remain in force and that the street be opened at the first possible opportunity.

Very respectfully submitted,

Henry Depper

Frank A. Schwann

# Taber's Addition

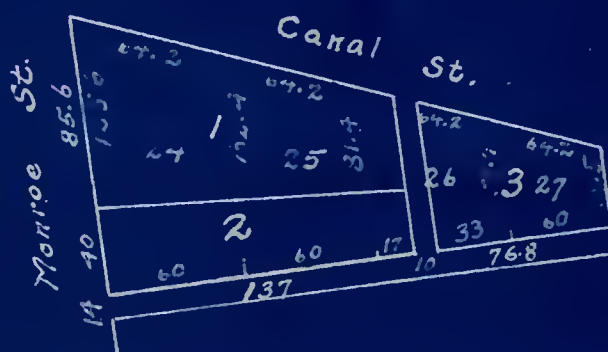

--- Streets are all 66 ft wide except Canal St which is 80 ft wide ---

-- All scaled 100ft to 1 inch --

# Moran's Subdiv

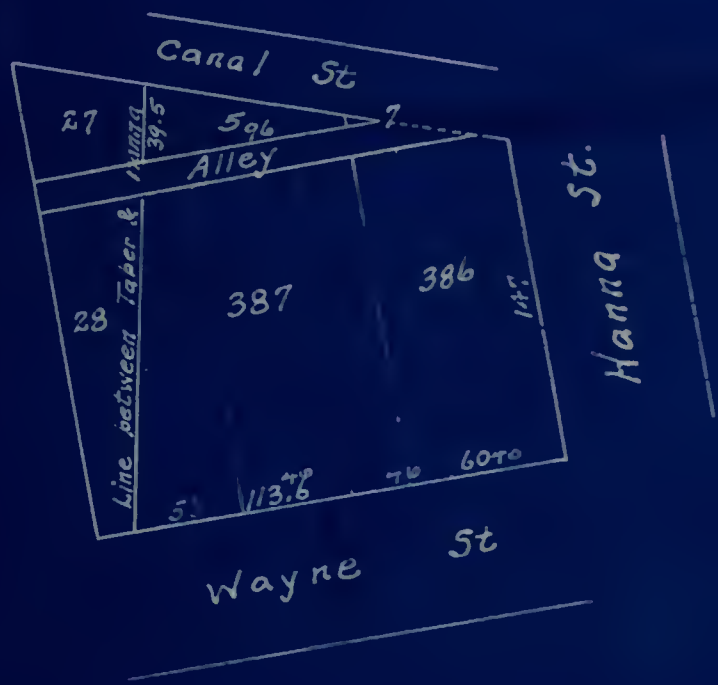

Lots 24, 25, 26 & 27 Taber's Add.

Deed Rec. 58 p. 200.

Taylor's Subdiv.  
 Lots 387 & 386 Hanna's Add  
 and Taber's Add.

Deed Rec. 66 p. 267.

**CITY OF FORT WAYNE. INDIANA**

**LEGAL DEPARTMENT**

**GUY COLERICK  
CITY ATTORNEY**

Nov. 27th 1922.

Board of Public Works,  
City.

Gentlemen:

I have investigated your right to open or extend Berry Street east under petition now pending before you. The statute in describing your power gives you the right to open streets over and across railroad rights of way.

If you decide to extend this street, it will be necessary for you to make the railroad company a party to the proceeding.

It is for you to determine whether or not the location of a street as contemplated in the petition will be totally inconsistent with the use of the same ground by the railroad company.

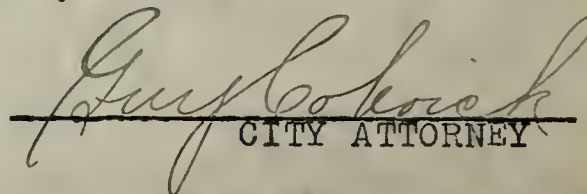

If you decide that the laying out of this street will so totally destroy the use of the ground for railroad purposes, then you have no right to proceed further in the matter.

On the other hand, if you decide that the laying out of this street will not totally destroy the use of the ground for railroad purposes then you may proceed but, in that event, you must determine the damage that will be sustained by the railroad company and include that damage in your assessment roll of benefits and damages.

If you decide to grant this petition and proceed with the opening or extension of the street, it will be better for you to notify me at the time each step in your proceeding is taken, so that I may aid and assist you in the preparation of your record.

Respectfully submitted

BEFORE THE BOARD OF PUBLIC WORKS

OF THE

CITY OF FORT WAYNE, ALLEN COUNTY, INDIANA.

REMONSTRANCE of the Peter A. Moran Ice Company, of the city of Fort Wayne, Allen County, Indiana, and of Frank J. Callahan against the adoption and confirmation of resolution reported to be adopted by the Board of Public Works on the 24th day of January, 1924, also against the opening and extension of Berry Street from Monroe Street to Francis Street, as is provided for in said resolution.

The said Peter A. Moran Ice Company and Frank J. Callahan remonstrate against said resolution and confirmation of the same and the opening and extending of Berry Street from Monroe Street to Francis Street for the following causes and reasons, to-wit:

Your remonstrators would respectfully show that the said Peter A. Moran Ice Company is now located at #801 Monroe Street in the city of Fort Wayne, Allen County, Indiana, and is directly adjoining and running parallel with the proposed opening of Berry Street from Monroe Street to Francis for a distance of 349.7 feet, commencing at the southeast corner of the point where it is proposed to open said street as aforesaid, and running directly east for 349.7 feet as aforesaid. That the main building which is used by the Peter A. Moran Ice Company for the purpose of manufacturing ice is located at a point running parallel with the proposed opening of said street, commencing 116 feet east of Monroe Street and running directly east over a space of 218 feet. That the said Peter A. Moran Ice Company has been located and established in said location for a period of sixty-three (63) years last past. That the said remonstrator, Frank J. Callahan, is now the sole owner of both the real estate and the business of the said Peter A. Moran Ice Company, and as such, both on behalf of this company and himself, personally remonstrates against the opening of said street as aforesaid.

Your remonstrators would further show that the said Peter A. Moran Ice Company is engaged in the manufacture and sale of artificial ice as well as the sale of natural ice, and that in connection therewith maintains a side track known and specified on the plans filed in connection herewith as Moran's side track, and that said track is used and operated for the purpose of hauling coal and ice both to and from the place of business of your remonstrators, as well as for the purpose of icing cars being transported over the New York, Chicago & St. Louis Railroad, which cars contain perishable goods and merchandise. That in this regard your remonstrators would show that approximately 300 cars of both coal and ice are hauled over said sidetrack in the course of a year's business, and that in the event of the opening of said street it is the belief of your remonstrators that it would be necessary to drop said side track to the level of the grade for an approximate distance of eight hundred (800) feet, and that the cost of so dropping said side track to the level of said grade, based on a cost of Fifteen (\$15.00) Dollars per foot, would result in a loss and damage to your remonstrators of at least Twelve Thousand (\$12,000.00) Dollars.

Your remonstrators would further show that in the event said street is opened and said track lowered, as aforesaid, that it would be necessary to reconstruct the building wherein the ice is manufactured and stored by your remonstrators so as to meet the new grade which would necessarily be established in the opening of said street, and that in this connection it would be necessary to create an underpinning in order to give the proper support to the structure of said building for a distance of two hundred eighteen (218) feet, the entire length of said building, which in the belief of your remonstrators would cost on an estimated cost of Thirty (\$30.00) Dollars per foot, the total sum of Six Thousand Five Hundred Forty (\$6540.00) Dollars. And that in this connection it will be necessary

to create an excavation for new footings under said building at an estimated cost of One Thousand Seven Hundred and Twenty Six (\$1726.00) Dollars. It would also be necessary to construct a concrete retaining wall, which would contain on an estimate 340 yards of concrete at Sixteen (\$16.00) Dollars, or a total cost of Five Thousand Four Hundred and Forty (\$5440.00) Dollars. It would also be necessary for your remonstrators to rearrange the entire building for the general purposes of unloading ice and coal, which would include the rearrangement of the floor level of the interior of said building, installation of elevators, etc., at an estimated cost of Ten Thousand (\$10,000.00) Dollars. It would also be necessary to construct a new driveway at an estimated cost of Two Thousand Six Hundred and Sixty Eight (\$2668.00) Dollars, and that the excavation in connection therewith would be an additional estimated cost of Four Hundred and Forty (\$440.00) Dollars.

Your remonstrators would further show that they erected on said premises their own sewers, suitable and adaptable for the purposes necessary in the connection with the conduct of their business. That it would be necessary in the event of the opening of said street to rebuild said sewers at a probable estimated cost of Five Hundred (\$500.00) Dollars, and that if said street is opened it would also necessitate an assessment for the paving of streets at a cost in excess of Two Thousand (\$2,000.00) Dollars, in addition to whatever other assessments might be levied against your remonstrators as the result of the opening of said street, all of which is entirely problematical and uncertain at this time.

Your remonstrators would further respectfully show that in the event of the opening of said Berry Street from Monroe Street to Francis Street, as aforesaid, that your remonstrators would be damaged (including the damage specifically outlined herein) to the extent of approximately between Forty Five Thousand (\$45,000) and Fifty Thousand (\$50,000) Dollars, which would be far in excess of any benefits that could possibly be derived by your remonstrators

as the result of the opening of said street.

WHEREFORE your petitioners respectfully remonstrate against the opening of said street as is provided for in said resolution.

PETER A. MORAN ICE COMPANY

FORT WAYNE, INDIANA

ATTORNEY FOR

## REMONSTRANCE

Fort Wayne, February 21,

1924

To the Board of Public Works of the City of Fort Wayne:

Gentlemen:

The undersigned, owners of real

estate fronting ~~on~~ 165 feet on Berry Street (between Clay & Monroe Streets) , ~~on~~ ~~on~~  
and 50 feet on Clay Street (between ~~on~~ Main and Berry Streets)

respectfully remonstrate against the passage of a resolution providing for the opening and extending  
Berry Street from Monroe Street to Francis Street. Declaratory Resolu-  
tion No. 479 - 1924.

The property owned by us is described as follows:

Lots #8 and #9 and the West 35 feet of Lot #7 together with the  
10 feet west which was formerly an alley (later vacated) and the  
North 50 feet of lot #10, all in Tabers Addition to the City of  
Fort Wayne, Indiana.

Among other reasons for our remonstrance is the following:

This property was purchased by us for the specific purpose  
of building a warehouse from which to conduct our wholesale  
business with Railroad facilities. The opening of this Street  
as contemplated will damage our property many thousands of dollars.

FILED WITH THE

Fort Wayne, Indiana

February 20th, 1924

TO THE HONORABLE BOARD OF PUBLIC WORKS

OF THE CITY OF FORT WAYNE, INDIANA.

Gentlemen:

With reference to the DAMAGE CLAIM of the OLD FORT SUPPLY COMPANY, by reason of the extending of East Berry Street and the opening of Canal Street, east of Monroe Street in the City of Fort Wayne, we desire to submit -

That the greater part of our damage would consist of the elimination of our siding. If, however, this siding were to remain and so changed that direct access thereto could be had, our damages would not be great.

If, however, this siding were interfered with, our damages would be irreparable as it would put us out of business. We must have access direct to the railroad.

We appreciate your honest effort to meet the demands of citizens with reference to this project but respectfully ask you to consider carefully the plans with reference to irreparable damage being done to us if our siding is not protected.

If our siding is assured us by you, we could very easily come to an understanding with you.

Respectfully yours,

The Old Fort Supply Co.

By

W. G. Zuber  
Manager

To the Honorable  
Board of Public Works:

Comes now W. M. Wells and respectfully  
says that he is a tenant of the following described property to-wit:-

Beginning at the intersection of the southerly right-of-way line of the lessor, with the westerly line of Francis Street; thence westerly along said southerly right-of-way line 136 feet to an angle; thence westerly along said southerly right-of-way line 80 feet; thence northerly at right angles 20 feet; thence easterly at right angles 90 feet; thence easterly parallel with the first described course 100 feet; thence northerly at right angles 8 feet; thence easterly at right angles 24 feet; thence southerly at right angles 28 feet to the point of beginning.

Also beginning at a point on the southerly right-of-way line of the lessor distant 230 feet westerly along said right-of-way line from it's intersection with the westerly line of Francis Street; thence westerly along said right-of-way line 100 feet; thence northerly at right angles 20 feet; thence easterly at right angles 100 feet; thence southerly at right angles 20 feet to the point of beginning.

That he leased said property from the New York, Chicago and St. Louis R. R. Company on the first day of June 1917; that he is still a tenant of said Railroad Company, and in all probability will remain as such tenant for years to come as indicated by his lease with said Company. That at the time he leased said premises, he immediately constructed certain coal sheds and established a Coal Yard on the premises leased, and has been occupying

said premises for such purpose, ever since he entered into possession of said premises.

That in order to better enable himself to carry on said coal business he had a track built to his coal bins, and the cost of the same was 2000<sup>00</sup> Dollars (\$) and in addition thereto he constructed a sewer on said premises at a cost of \$250.00, and that before he erected his coal sheds, and for the purposes of improving the premises as a coal yard he expended \$350.60 in filling in the premises. That he expended about \$5000.00 by way of improvements in establishing said coal yards, and that if he were compelled to remove same and re-locate, it would cost him in the neighborhood of \$15,000.00 and in addition thereto he would suffer loss because he would not be able to secure so good a location for a coal yard, and one that he could operate with so little expense, as he now can operate his present coal yard by reason of it's location along the right-of-way of the New York, Chicago, and St. Louis Railroad Company's lines.

Your petitioner further says that if the resolution opening Berry Street along the right-of-way of said Railroad Company is established, and said street opened that the opening thereof will be over the premises rented by this your petitioner, and that said opening of said street would absolutely destroy your petitioner's coal yard, to his damage in the sum of \$15,000.00. *That damage of removing will be less than the benefit*

*remuneration*  
~~WHEREFORE your petitioner asks that he be~~  
~~allowed damages in that amount by reason of the premises as~~  
~~aforsaid.~~  
*against the opening of said street*

FILED WITH THE

BLAIR & BILLY, PRINTER

BEFORE THE BOARD OF PUBLIC WORKS  
OF THE  
CITY OF FORT WAYNE, ALLEN COUNTY, INDIANA.

REMONSTRANCE of The New York, Chicago & St. Louis Railroad Company against the adoption, confirmation of resolution reported to be adopted by said Board of Public Works of the 24th day of January, 1924, and set for hearing February 14, 1924, at 7:30 o'clock P. M., also against the opening and the extension of Berry Street from Monroe Street to Francis Street as provided for in said resolution, which resolution is in the words and figures following, to-wit:

And said The New York, Chicago & St. Louis Railroad Company remonstrates against the said resolution, confirmation of the same and the opening and extending of Berry Street from Monroe Street to Francis Street, for the following causes and reasons, viz:

I. The said The New York, Chicago & St. Louis Railroad Company owns and operates a line of railroad extending from the City of Chicago, in the State of Illinois, through the State of Indiana, including the City of Fort Wayne, and the states of Ohio, Pennsylvania and New York, to the City of Buffalo, New York, together with other railroad lines connecting therewith, including what is known and called the Lake Erie & Western Railroad, connecting with the said The New York, Chicago & St. Louis Railroad at the City of Fort Wayne and other points in the State of Indiana and other states; that it is engaged in state and inter-state commerce, in the transportation of passengers and freight, over its lines of railroad; that it owns all of the land sought to be appropriated for the establishment and extension of said Berry Street between Monroe Street and Hanna Street, from the North line of Moran's Subdivision

of lots numbered 24, 25, 26 and 27 of Tabers Addition, and Taylors Sub-division of lots 387 and 386 Hanna's Addition; that the plan shown by a plan of such proposed opening and extending of Berry Street, now on file in the office of the Department of Public Works of said City, shows that thirty (30) feet of the street, so to be opened and extended, is Canal Street and Moran's Railroad Track, but that, as a matter of fact, said strip of land, shown as being Canal Street and Moran's Railroad Track, was a part of the Wabash and Erie Canal and was purchased, and is owned, by the New York, Chicago & St. Louis Railroad Company; that there has never been any such street as Canal Street legally established, as in shown upon said plan of opening; that the city has never approved any plat and has never accepted or recognized any such street as Canal Street, and that, as a matter of fact, what is designated as Canal Street and Moran's track is the property of The New York, Chicago & St. Louis Railroad Company, as well as the twenty (20) feet of the North part of said proposed extension of Berry Street between Monroe Street and Hanna Street; that the proposed extension of said Berry Street from Hanna Street to Francis Street will occupy and appropriate a strip twenty-five (25) feet wide off of the property of The New York, Chicago and St. Louis Railroad Company; that there has been constructed, and been in use for a long number of years, a track extending from the main tracks of The New York, Chicago & St. Louis Railroad Company, immediately along the North side of Moran's Sub-division of Tabers Addition and Taylors Sybdivision of Hannas Addition, as described in said resolution; that said track connects with what is known as the Moran Ice Plant, and that it was constructed and has been and is now is use by the New York, Chicago & St. Louis R. R. Co. in inter-state commerce in the shipment of carloads of coal and other material from states other than Indiana over the tracks of The New York, Chicago & St. Louis R. R. Co. and delivery at said Moran Ice Plant on said railroad track, so constructed for the purpose of conducting its

inter-state commerce business in the receipt and shipment of coal and other carloads of products to and from said Moran Ice Plant from and to other and different states than Indiana; that connecting with the other main track of The New York, Chicago & St. Louis Railroad Company East of Francis Street there is a track extending from the main tracks of said Company for more than half block, which is owned, occupied and used by The New York, Chicago & St. Louis Railroad Company for the purpose of conducting its inter-state business and delivering carloads of coal and other products of the Wells Coal Company, situated immediately West of Francis Street and on what would constitute a part of the proposed extension of Berry Street; that said proposed extension of Berry Street would destroy the use of said tracks and interfere with inter-state commerce conducted by the said The New York, Chicago and St. Louis R. R. Co. and prevent said The New York, Chicago and St. Louis R. R. Co. from conducting its inter-state commerce as now conducted by it over said tracks aforesaid.

II. Said The New York, Chicago & St. Louis Railroad Company further remonstrates against said resolution, the confirmation of the same and the extension of Berry Street, as proposed by said resolution, for the reason that the ground, over which said proposed extension of said street is to be established and particularly that portion of it between Monroe and Hanna Streets and portions between Hanna Street and Francis Street, is much lower than at Monroe Street and Francis Street, at some places as much as twenty (20) feet lower, and that to improve said street and make it suitable for public travel, the same would have to be raised to a level of the lands to the South of it and the points at Monroe

Street and Francis Street, and that such improvement could not be accomplished within the fifty (50) feet so designated for the width of Berry Street extended, but in the filling of said street to a proper and suitable height for travel, it would extend over and appropriate a strip at least twenty (20) feet in width North of the proposed width of the street, as provided for in said resolution and would be appropriating at least twenty (20) feet of the lands of The New York, Chicago & St. Louis Railroad Company without any compensation whatsoever.

III. The New York, Chicago & St. Louis Railroad Company respectfully represents and remonstrates against the confirmation and approval of said resolution and the extending of said Berry Street, as proposed by said resolution, for the reason that its said railroad between the cities of Chicago, Illinois and Buffalo, New York, including Fort Wayne, and all other points between the cities of Chicago and Buffalo, and in connection with its other lines of railroad, so owned and operated by it, together with other railroads conducting inter-state business, is engaged in inter-state commerce in the transportation of passengers and freight in carload and other amounts of freight, and that the country along the line of said railroad, including the City of Fort Wayne, is constantly improving and the business increasing, and for the accommodation of the general public and to enable it to take care of and conduct the inter-state commerce business, demanded of it as a railroad and required to be conducted by it, the said The New York, Chicago & St. Louis Railroad Company has been largely increasing its facilities all along the line of its railroad, building double tracks and sidetracks, and recently purchased a large tract of land immediately East of Fort Wayne for the purpose of erecting yards, roundhouses and shops for the conducting of its business, as well as maintaining one in the West part of Fort Wayne at the present time, and that it contemplates, and intends to,

and will within a very short time increase the number of its other tracks in the City of Fort Wayne to at least four instead of the two now maintained by it, and in the building and constructing and operating of said tracks will require all of the land available for railroad purposes owned by it between Monroe Street and Francis Street in the City of Fort Wayne, including that portion which the resolution proposes to convert to, and use for, the opening and extending of Berry Street from Monroe Street to Francis Street, and that to permit the condemnation and appropriation for street purposes a parallel line of the width proposed by said resolution, will materially interfere with and obstruct the business of said Railroad Company in the building of its necessary tracks for the conducting of its interstate commerce when such tracks are completed, and that the said City of Fort Wayne has no authority to appropriate said parallel portion of said right of way of The New York, Chicago and St. Louis R. R. Co. for street purposes, and has no authority to pass said resolution and adopt the same and to construct said extension of Berry Street, as proposed, for the reason that it will interfere with the operation of said railroad in the conducting of its interstate commerce business.

IV. The New York, Chicago, and St. Louis R. R. Company further remonstrates against the resolution proposed in this case and the adoption of the same and the extending of Berry Street, as proposed in said resolution from Monroe Street to Francis Street, for the reason that the City of Fort Wayne, by its Board of Public Works, has adopted a resolution providing for the elevation of the tracks of said The New York, Chicago and St. Louis Railroad Co. through the City of Fort Wayne, and to make sub-ways at its various streets for the crossing and re-crossing of said railroad; that said city is proposing to immediately compel the elevation of the tracks of said The New York, Chicago and St. Louis Railroad Co. through said City of

Fort Wayne, and that to do so, at such reasonable height as will permit sub-ways to be properly conducted and used through and under said railroad at various street crossings, will require an elevation of said railroad tracks in said city and between Monroe Street and Francis Street of at least twenty-five (25) feet or more, and that to so elevate said tracks will require, in addition thereto, a large slope which will cover and occupy and include the entire right of way of said The New York, Chicago & St. Louis Railroad Company through said City and between Monroe Street and Francis Street, including the portion of said right of way sought to be appropriated for the extension of Berry Street under the resolution hereinbefore set out.

V. Said The New York, Chicago and St. Louis R. R. Co. further remonstrates against said resolution, the confirmation of the same and the extension of Berry Street, as proposed by said resolution, for the reason that there is no public necessity for the extension and construction of Berry Street, as proposed in said resolution; that on the East side of Monroe Street there would be less than a block between said proposed extension and Wayne Street upon the South, and that said proposed street runs Southeast to the East side of Hanna Street where the proposed extended street would be only one hundred seven (107') feet North of the North line of Wayne Street; and at Francis Street it would be less than one block from Wayne Street; that said Berry Street connects with Monroe Street and Monroe Street connects with Wayne Street, <sup>and</sup> at the East end of such proposed extension Francis Street connects with Erie Street on the East and with Wayne Street on the South, so that there would be no material gain ~~xxx~~ in the travel between Monroe Street and Francis Street by reason of the proposed extension of Berry Street, and that Wayne Street is one of the main streets extending entirely through said city and does and will afford amply transportation for all traveling in the East part of said City, which would pass over either

Wayne Street or Berry Street if the same were extended as proposed by said resolution; that there would be no lots fronting on the proposed extension of Berry Street between Monroe Street and Francis Street, but that all of the frontage of said lots are to the South on Wayne Street, and there is no necessity whatever for the extension of said Berry Street; that to extend said Berry Street, grade and pave the same from Monroe Street to Francis Street would cost at least the sum of Forty Thousand (\$40,000.00) Dollars, and that the damages resulting to the New York, Chicago and St. Louis Railroad Co. by reason of the establishment of said proposed extension of Berry Street and the appropriation of its lands for such extension would amount to at least fifty thousand (\$50,000.00) Dollars.

WHEREFORE, The New York, Chicago and St. Louis R. R. Co., asks that upon the hearing of said resolution the same be set aside and cancelled and that no further proceedings be had in the premises and for all proper orders for the termination of all action under said resolution.

THE NEW YORK, CHICAGO & ST. LOUIS R. R. CO.

BY Walter Olds  
Its Attorney.

Wayne Street or Berry Street if the same were extended as proposed by said resolution; that there would be no lots fronting on the proposed extension of Berry Street between Monroe Street and Francis Street, but that all of the frontage of said lots are to the South on Wayne Street, and there is no necessity whatever for the extension of said Berry Street; that to extend said Berry Street, grade and pave the same from Monroe Street to Francis Street would cost at least the sum of Forty Thousand (\$40,000.00) Dollars, and that the damages resulting to the New York, Chicago and St. Louis Railroad Co. by reason of the establishment of said proposed extension of Berry Street and the appropriation of its lands for such extension would amount to at least fifty thousand (\$50,000.00) Dollars.

WHEREFORE, The New York, Chicago and St. Louis R. R. Co., asks that upon the hearing of said resolution the same be set aside and cancelled and that no further proceedings be had in the premises and for all proper orders for the termination of all action under said resolution.

THE NEW YORK, CHICAGO & ST. LOUIS R. R. CO.

BY Walter Olds  
Its Attorney.

J. H. ECKLES,  
JUSTICE OF THE PEACE  
WAYNE TOWNSHIP

FORT WAYNE, IND., \_\_\_\_\_ 191\_\_\_\_\_

To Your Honorable Body The Board of Public Works: We the undersigned Citizens of Fort Wayne Indiana do here in petition and request for the public use and well fare that you now open, extend and improve East Perry Street from Monroe street East to Hanna street and thence East to Francis street to connect with Erie street and that you take and condemn such portion of the south side of the \_\_\_\_\_ Railroad and of the North ends of the lots at the south side thereof between said Hanna and Francis streets as may be necessary there to, and that you widen said Erie street on the south side between Francis and Hanna streets so that the south line may coincide and be in line with the South line of said Erie street running East beyond Hanna street so as to eliminate any <sup>dangerous</sup> jog in said Erie street thence on to Anthony Blvd. And that the City Engineer be authorized immediately to make a survey what property shall be taken therefor, and that the name of said Erie street

be changed to East Berry street

Signed by

John H. Eckler #721, and 723 E. Wayne Street
